Program

The fields of Violence Threat Risk Assessment (VTRA) and Crisis/Trauma Response are inseparably connected. The TES Model is focused on initial response to crises as well as traumatic aftermath (months to years following a tragedy) but it also addresses strengthening pre-trauma functioning of individuals, families, schools, workplaces and communities. TES and VTRA are complimentary models that could be considered opposite sides of the same coin and as such, the original "Trauma-Violence Continuum" developed by J. Kevin Cameron and Dr. Marleen Wong will be expanded upon as "serious violence can beget trauma but trauma can also beget serious violence." The suggest pre-requisite is Level One VTRA Training.

This learning opportunity is being offered through a grant from Alberta Education.

Presenters

Pat Rivard

With over twenty years of leadership experience in the fields of education and human services, Patrick (Pat) is uniquely qualified to lead communities and organizations in understanding the traumatic impact of a pandemic. Pat brings wealth of experience to the Center for Trauma Informed Practices (CTIP) as a 5 year National Trainer in Traumatic Event Systems (TES), and Violence Risk Threat Assessment (VTRA). Pat has been the keynote speaker for many organizations across Canada, speaking to the ways and importance of creating reasonable meaning in the challenges a pandemic brings to the human experience. He is a contributor and co- author of the nationally distributed Guidelines for Re-Entry into the School Setting and Rising to the Challenge: Staying Connected to our Students. Pat was also the national training lead in North America's largest urban Violence Threat Risk Assessment (VTRA) initiative, having trained and collaborated with over 100 community agencies and more than 500 police officers. The FOCUS Toronto initiative continues to be a community-based initiative responding to many forms of violence including violent extremism. Pat is currently working in collaboration with Dr. William Pollack, Harvard Medical School and Senior Advisor to CTIP, in threat assessment research. He also recently co-presented with Dr. Marleen Wong from the University of Southern California, integrating her pioneering work in Psychological First Aid with the Trauma Event Systems (TES) model. Pat is an Alberta born Francophone, currently CTIP's only bilingual National Trainer, and is supporting the province of New Brunswick in the coordination and advancement of their own provincial bilingual VTRA protocols. Pat states, "it is such a privilege to combine my previous careers as a Child Welfare Specialist, Family Counselor, and Educational leader and be able to use them to support communities in the trauma informed threat assessment practices".

Registration Notes

****Please note: the required manual is included in the registration fee.****

Once you have registered for a professional learning session, our system automatically generates and sends a **'Confirmation of registration email'**. This 'automatic response' will be sent to the email address you enter at the time of registration'. If the workshop you registered for is **Online**, you will find a link to connect you to the workshop in your confirmation email. If you do **NOT** receive a confirmation email within 24 hours of registering, please check your **Spam/Junk/Trash file**. If you do not receive a confirmation email, please contact celine.zevola@learning-network.org
