

# ICPP22-238 CI-Subject Area Deep Dive: Mathematics

Presented By: Jackie Ratkovic

## Date(s):

Wednesday, August 24, 2022  
9:00 AM - 12:00 PM

## Session Location:

Online  
Your Computer, Online, AB

## Registration Fee:

Free

**Audience:** Teachers

**Grade Level:**

## Special Notes:

Once you have registered for a professional learning session, our system automatically generates and sends a '**Confirmation of registration email**'. This 'automatic response' will be sent to the email address you enter at the time of registration'. If the workshop you registered for is **Online**, you will find a link to connect you to the workshop in your confirmation email. If you do **NOT** receive a confirmation email within 24 hours of registering, please check your **Spam/Junk/Trash file**. If you do not receive a confirmation email, please contact [celine.zevola@learning-network.org](mailto:celine.zevola@learning-network.org)

## About the Session:

Ready to take the leap and do some learning and planning with the new outcomes? Join us to talk about planning, assessment, and quality instruction in the numeracy classroom. Sample processes and structures will be shared for teachers to make use of in their own contexts. Participants will walk away from this learning experience confident to start the school year in this subject area.

PLEASE NOTE: It is recommended that participants of this session are already familiar with the [curriculum design and architecture](#) and have a [New.LearnAlberta account](#). (Follow the links for videos to help you with this.)

## About the Presenter(s):

### Jackie Ratkovic

Jackie Ratkovic loves making sense of the use and abuse of concrete materials, understanding the importance of visual, spatial reasoning for the development of number sense, problem solving skills, and learning to ask good questions are four areas that greatly intrigue her. Jackie currently works as an independent consultant and instructional coach to teams of teachers, over the past 19 years, in several districts across the province. Her work is focused on unpacking the Alberta Program of Studies in ways that honor and value its intent of a student-centered approach to understanding, which allows each student to become capable, confident, and responsible for their own learning.
